Annual Report of the Boiler Inspector.

OFFICE OF STATE BOILER INSPECTOR.

Helena, Montana, December 1, 1902.

To His Excellency,

JOSEPH K. TOOLE,

Governor of Montana.

Sir:—In compliance with Section 567 of the Political Code, I have the honor to submit herewith the Fourteenth Annual Report of the Boiler Inspector's Office of the State of Montana, the same being for the year ending November 30th, 1902.

The tabulated statements attached set forth in detail the work of the office for the year.

Carefully compiled statistics show that in the United States during the year 1901, there were 423 boiler explosions, in which 312 persons were killed and 646 were injured, making a total of 958 persons killed and injured from such explosions. I am exceedingly glad to be able to report that in the State of Montana during the years 1901 and 1902, there have not been any explosions of boilers or their steam connections which come under the operation of the boiler inspection law.

I would call attention to the fact that the revenues from this office for the past two years have been larger than for any previous two years in its history, the excess of receipts over expenses being as follows:

1901—Surplus	\$1,747 90
1902—Surplus	1,600 90

Total surplus for the two years	\$3,348 80
---	------------

I gladly make cordial acknowledgement of the faithful and efficient co-operation of Mr. J. D. O'Brien, Assistant Boiler Inspector, and also of the courtesies and assistance in the discharge of my official duties rendered me by owners and users of steam plants and of the engineers in charge thereof.

Respectfully submitted,

J. H. DAILEY,

State Boiler Inspector.

In conducting the boiler inspections the total number of miles traveled was 19,462 miles. The number of visits made was 885. The number of boilers examined externally and internally and pressure hydro-statically applied was 867. In these inspections 2,991 defects were noted, 1,768 of which were considered dangerous and suitable repairs recommended. Seven boilers and 11 mud drums were condemned as unfit for further use. During the year 433 examinations of applicants for engineers' licenses were conducted. At this date 2,161 licenses are in force. Of this number there are about 259 who are non-residents, but who still keep their Montana licenses in force.

The following is a classified list of defects noted.
